- Large logging memory, fast ethernet downloads
- Real-time laptop logging

M130 YAMAHA MARINE ECU PLUG-IN KIT

Includes

- M130 Marine ECU
- Yamaha FXSHO 2008 package and licence
- M1 Tune software
- Plug-in adaptor loom
- Mounting kit
- Data Logging Level 1 (10 Hz, 100 channels, 120mb)

Compatible with

- FXHO, FXSHO, FZR, FZS, VXR

Upgrade Options

- Data Logging Level 2 (200 Hz, 100 channels, 120 mb)
- Pro Analysis (i2 Pro)

M130 SEA-DOO MARINE ECU PLUG-IN KIT

Includes

- M130 Marine ECU
- Sea-Doo package and licence
- M1 Tune software
- Plug-in adaptor loom
- Mounting kit
- Data Logging Level 1 (10 Hz, 100 channels, 120mb)

Compatible with

- RXT-X & IS 2010 onwards, RXP-X 2012 onwards

Upgrade Options

- Data Logging Level 2 (200 Hz, 100 channels, 120 mb)
- Pro Analysis (i2 Pro)

M130 HYDROSPACE MARINE ECU PLUG-IN KIT

Includes

- M130 Marine ECU
- Hydrospace package and licence
- M1 Tune software
- Plug-in adaptor loom
- Mounting kit
- Data Logging Level 1 (10 Hz, 100 channels, 120mb)

Compatible with

- Hydrospace S4

Upgrade Options

- Data Logging Level 2 (200 Hz, 100 channels, 120 mb)
- Pro Analysis (i2 Pro)

M1 SOLUTION COMING SOON

>> MOTEC ALSO PROVIDES M400 BASED PWC SOLUTIONS <<

MoTeC PWC Plug-In M400 Marine ECUs are fully programmable, direct replacements for factory ECUs. Complete with a wiring loom and mounting brackets, these plug-Ins are convenient and cost effective to install because they eliminate the need to rewire the PWC. They simply plug into the factory wiring harness using the original sensors and fuel system.
